

HOW TO...

UNDERGROUND VIEW

YOU'LL NEED

- A jam jar or glass, knife or scissors, tape
- Some earthworms
- A spade for digging up the soil
- A large sheet of black paper or cardboard

WHERE

- Anywhere there's soil

WHAT TO DO

- Fill jam jar with soil
- Tape a black sheet of paper around the jar
- Put the earthworms into the jar
- Leave it for a few days, then take away the sheet of paper to see tunnels made by the worms

 Hint: Earthworms are easiest to find when it's raining.
